General Information

New Furniture: Construction

All frames are .065 heavy gauge aluminum tubing. It is welded with full circumference welds. Frames are sandblasted to provide the best adhesion for our Powder Coating Process. It is electro statically applied then baked on to give a high luster durable finish result.

Our vinyl strapping is 100% pure virgin vinyl. Our vinyl is treated with mildew inhibitors and ultraviolet stabilizers to minimize fading and weathering. All of our furniture is double wrapped and anchored to the frame by nylon studs to prevent the straps from coming off.

Maintenance Instructions

We recommend a regular maintenance program for your furniture. The frames and vinyl should be washed with a mild detergent (like Dawn dish wash soap) at least once a month. **SHOULD YOU NEGLECT TO CLEAN** your furniture regularly and mildew builds up we recommend the use of a vinyl cleaner to remove the mildew. We recommend the use of a towel when using suntan lotions and oils. If suntan lotion or oil should get on the furniture, clean immediately with mild soap and water. Do not place you patio furniture into a swimming pool or Jacuzzi under any circumstance.

Never use any kind of solvent, gasoline, alcohol or ammonia based cleaner, undiluted bleach, abrasive or janitorial cleaner, scouring agent or any other harsh or Industrial strength cleaner because this may damage your furniture and void your warranty. If you have cushions they should be vacuumed, washed regularly to prevent dirt, salt and other contaminants from penetrating into the core material. The zippers are for manufacturing convenience and attractive quality seams only - not for washing purposes. Never remove the core material from your cushions and attempt to wash covers in the washing machine. Never place your cushions in a swimming pool or Jacuzzi that will fade and ruin them. Always read the instruction carefully when using any cleaners.

Table Tops: Acrylic tops should be cleaned with "Endust" or a mild liquid detergent. Glass tops can be cleaned with any glass cleaner. Fiberglass can be cleaned with a mild liquid detergent. Always rinse thoroughly after cleaning and never use any harsh abrasives or solvent cleaners. Never place your fiberglass tops into your pool or Jacuzzi. Never place your fiberglass tables upside down where water can accumulate and cause swelling of the tops. Never position your furniture to allow moisture accumulate inside the tubing where it may freeze during winter months. The upper pole and ribs of umbrellas should be lubricated with WD-40 or silicone spray, but do not lubricate the crank mechanism. Always close your umbrella and remove it from the table when not in use.

Safety Precautions

Never move or adjust chaise lounge or recliner headrest while seated. Always get up from the Chaise or recliner and make the necessary adjustments while standing. Never place hot items directly on glass acrylic or fiberglass tabletops. Never use umbrellas during windy conditions. Close and/or remove umbrellas from tables when not in use.
